Itinerary

- Overview of forestry assistance available to landowners
- Field identification and discussion of West MI's new invasive insect, Hemlock Woolly Adelgid
- Lunch, socialize with other forest landowners and foresters
- Carpool to visit the Hehl & Fitzpatrick family forests in Coopersville to discuss sustainable forest management for the private woodlot owner and benefits of the Tree Farm program

This field day is sponsored by the Michigan Tree Farm Committee and the Conservation Districts in West Michigan.

See www.treefarmsystem.org/michigan for more information about Tree Farm in Michigan.
